I want to have fun, learn skills and be healthy. Through activities in the school and community, your teen will explore their physical abilities and improve their fitness level. They will understand that fitness impacts well-being and body image. Communicating with others, your teen will develop a sense of fair play and exercise their leadership abilities. They will discover the importance of safe, active living for life; set goals; and challenge themselves as part of an active, healthy lifestyle.

Exemptions from Physical Education
Exemptions from participation in physical education may be given for medical conditions, when a medical certificate from a doctor is presented to the principal; for religious beliefs, when a statement in writing from the parent is presented to the principal; and when access to facilities is prohibitive. When exemption is granted, activities consistent with the program outcomes should be substituted, where appropriate.

Learning is assessed using a variety of tools and strategies. Ask the teacher what methods they are using. The different assessment methods tell you, your teen and your teen’s teacher about your teen’s strengths, the areas in which they might grow and how well they are doing throughout a course. At the end of the course, your teen will be assessed and their achievement will be reported so that you know if they have achieved the expected learning outcomes.

A variety of digital and print resources, developed by publishers, Alberta Education or Alberta teachers, are available to help students learn. Teachers may select, and bring into the classroom, numerous innovative and creative resources to create rich learning experiences for your child. Visit new LearnAlberta.ca (https://new.learnalberta.ca/) to learn more about the resources your child may encounter.

You play an integral role in your teen’s education by providing the encouragement and support your teen needs to succeed.
